Essence of Care 2010: Benchmarks for Bladder, Bowel and Continence Care

by Great Britain: Department of Health

The benchmarking process outlined in Essence of Care 2010 helps in setting standards for bladder, bowel, and continence care. This process was designed to align with the essence of care principles set out by The DH's Essence of Care 2010. The Adult Continence Service plays a crucial role in providing integrated continence care for residents and those in receipt of CHC and People (2001), Essence of Care (2010) and SSOTP Continence Care Pathway. DOH Essence of Care (2010) Benchmarking for Bladder, Bowel and Continence and Catheter Training - NHS Stafford and Surrounds CCG 1 Oct 2010. The nursing philosophy in Continence Care is based on the belief that people have the right to be continent, where (DoH 2010 Essence of Care bladder and bowel benchmarks). Essence of Care.
